

# Environmental Policy

Greenbelt's vision is to be trusted to care for the environments in which we operate. Our purpose is to provide high quality land management services in an affordable manner while protecting and enhancing the environment, supporting communities and the economy. Greenbelt is committed to finding and developing ways to be increasingly sustainable in how we deliver those services.

Greenbelt's Management Team is committed to delivering the company's vision and success aspirations and therefore manages environmental matters as an integral part of its activities to enable us to plan and operate our processes and facilities in an effective and sustainable manner.

Greenbelts Management Team is committed to ensuring that we:

- Fulfil our compliance obligations relating to environmental laws, regulations and standards; and meet our own environmental quality standards where existing laws or regulations are not adequate to ensure protection of the environment
- Maintain our certification to the environment management standard BS EN ISO 14001:2015
- Educate, train and motivate employees to carry out tasks in an environmentally responsible manner, and ensure that a continuing professional development strategy remains core to our business
- Support continual improvement to enhance our overall environmental performance, which is facilitated by implementing management systems and procedures, and the setting of objectives based on our environmental aspects and impacts and compliance obligations
- Reduce impacts on the environment from our activities and services, and work towards product life extension approaches where possible
- Improve the amounts of material re-used and recycled, and decrease our operational carbon footprint
- Minimise the amount of waste generated, and ensure the safe treatment and re-use of waste where possible to prevent release of any harmful pollutant to the atmosphere, land or water
- Work with suppliers and contractors to improve environmental performance throughout our supply chain
- Ensure that we continue to raise awareness of environmental issues and communicate our environmental performance and developments

This Policy will be communicated to all staff, contractors and suppliers, and be available to the public or interested parties through selected media.

**The scope of the Greenbelts Environmental Management System is:**

The provision of long-term quality stewardship, management and maintenance solutions on public open spaces in residential developments across the UK.
